

**SHELTER**

because housing matters

## **NRSCH Q & A**

### *Eligibility to register*

**Can an organisation which is not currently funded as a 'community housing' provider register now?**

An organisation can apply to be registered; however the Office of the Registrar is currently prioritising the assessment and registration of currently funded community housing providers. Any eligibility and registration decision is dependent on the individual circumstances of the organisation.

**Are National Rental Affordability Scheme (NRAS) funded units included in the registration, and if so, how should they be included?**

Yes, NRAS funded units should be included in the registration application. However, whilst NRAS properties are not included as part of an eligibility decision, they are considered in tiering decisions. If providers have any questions about where NRAS properties should be listed, please contact the Office of the Registrar.
